When America was first discovered men traveled miles and miles to find a place to settle. Nowadays some men travel miles and miles so that they won't have to settle.

1776-1918

The descendants of the compatriots of Washington and Paul Jones are fighting once again side by side with the descendants of the compatriots of Lafayette and Rochombeau. The time and opportunity have come for a nation to pay a great debt of gratitude for service rendered in great national need and America is paying France the debt she long has owed.

In the Revolutionary War for the freedom of America the French fought on American soil under the command of an American. Today in the war for the freedom of France and for the preservation of liberty to America, and indeed to all the world, Americans fight o n French soil under the supreme command of a Frenchman. The honors are even and the honors are great.

No true American who knows the history of his country and loves the honor of his country but thrills at the thought of the American army in France. The invincible Americans will turn the tide of war; they will bring to France and her allies a victory for liberty such as France assisted us to win, and repay with interest a debt of liberty and to France long owing and honorably acknowledged.

At no time during the war has the importance of wheat saving been greater than at this moment.

So serious is the situation, so vital the need for saving wheat and wheat products, that the government is asking every man and woman in America to stop eating, voluntarily, all foods containing wheat flour and wheat products in any form and in no case to eat more than one and one-half pounds a week. This does not apply to invalids or children, but it has been carefully investigated and found that children can substitute potatoes for bread as well as the grown up and thrive by the change.

All restrictions on the use of other foods have been removed. You may eat as much meat, including bacon and cured pork products, as you need. Out of our vast storehouse of supplies we are asked to select anything we wish—except wheat. When thousands are dying on the battle fields of Europe to protect YOUR home and YOUR family it is very little to ask in return that wheat be eliminated from your menu. Do away with wheat—abolish it from your table and you will be aiding in the defense of your home and country. Every time you eat a piece of white bread you are taking it away from one who needs it worse, from either a starving woman or child or a hungry soldier. Let that thought be in your mind at every meal and see if from now until the next harvest, five months hence, you cannot say that you have touched no wheat or wheat products. Thousands of people in America are now doing this without any injury to their health or comfort. It is merely inconvenient.

One of the largest single items of enemy cash so far received by A. Mitchell Palmer, Alien Property Custodian, was reported when a check for $5,077,000 was turned into the United States Treasury by the custodian. This item of enemy money was held by a banking institution in one of the large cities of the country and its enemy character was determined through the vigilance of the State Department which cooperated closely with the office of the Alien Property Custodian to that end. The amount paid in represents the principal of the enemy account ($5,000,000) with interest.

PROCEEDINGS OF BOARD OF TRUSTEES

The Board held its regular meeting on Thursday night, all members being present. A correction was made in the minutes of April 18. The minutes of April 22 were approved as read.

Mr. McClellan complained of condition of vacant lot adjoining his property and also asked permission to use air gun for shooting birds. The matter of the vacant lot referred to the City Attorney and the air gun to the City Manager.

An application from M. Glora to sell milk was granted.

A communication was read from the Salvage Department of the American Red Cross Headquarters in San Francisco, asking the City to adopt a resolution by which all materials which were no longer useful in the several departments of the City be turned over to the local branch of the Red Cross to be sold for the benefit of that organization. The City Attorney was instructed to draft a resolution complying with the request.

A communication from W. D. Bullock asking that he be exempted from paying dog tax, which was denied.

Bids for the City printing for the ensuing year were opened and the contract given to A. T. Cowan at 6 1-2 cents in the weekly and 35 cents in the daily.

The appointing of J. W. Stauffacher as chief deputy assessor by the City Clerk was confirmed.

The chairman of the Board appointed Trustees Muhleman and Shaw and the City Attorney and City Manager to consider an ordinance fixing the salaries for various employees of the city.

It was ordered that the Board advertise for supplying articles for the pump, according to specifications set forth by the Chief of the Fire Department.

The matter of the consolidation of the telephone companys in Glendale was discussed and strong disapproval of the charge of 10 cents toll charge between Glendale and Los Angeles was made. A resolution that a petition be filed with the Railroad Commission asking that a new rate be made between these two points and that the old rate be in effect until the new one was made.

The Manager of the Public Service Department was instructed to proceed to arrive at a valuation of the Southern California Edison Company in the district formerly Tropico.

On motion, Peter L. Ferry was rented the street roller of the City at $125.00 per month, Mr. Ferry paying all costs for repairs, etc.

L. C. Brand agreed to purchase the $55,500 of bonds for Municipal District No. 1 of the City of Glendale, which was accepted.

The City Clerk was instructed to communicate with the Title Guarantee & Trust asking them to state in writing the price which they will sell the Tropico water system, etc. to the City of Glendale.

The City Attorney reported that in the case of Daisy Mason vs. the Trustee of the former City of Tropico, it was advisable to secure the evidence of two or more physicians in the case, and he was instructed to so proceed.

The election to be held in Municipal Improvement District No. 2 was deferred until a later date, on motion, to give the Manager of the Public Service Dept. time to prepare a detailed statement as to the amount of the proposed items of expenditure.

Trustee Henry made a motion that the City Assessor be instructed not to raise the valuation of property on the assessment roll of this year over the figures of 1917. Although the motion was considered good, it was laid on the table because of the legal standpoint of taking such action.

The Board adjourned at 11:55.

FIRST BIG PICNIC FOR VENICE

SHOOTS AT BIRD—BULLET HITS COMPANION

William Snell, the 15 year old son of Mrs. M. M. Snell of 116 East Eulalia street, is in a critical condition with a bullet wound in his right side as a result of a very unusual accident, which happened about five o'clock Tuesday afternoon, on West Cypress street just off of Central avenue.

William had been spending the afternoon with his companion, Neville Richardson of 124 S. Central avenue, at which place the accident happened. Mrs. Richardson had been having quite a little trouble lately with the birds which had been eating up the fruit on the trees, and Neville and William took it upon themselves to do away with this nuisance. So with a small twenty-two rifle and a few shot-shells they indulged in the sport of shooting the birds. The Snell boy had a twenty-two bullet, which he put in the rifle and laying it down jumped on a bicycle to go home. At the same time Neville saw a bird sitting on the telephone wire, and picking up the rifle took aim at it and fired. William on the bicycle was under the wire where the bird was sitting, and in some way the bullet glanced off from the wire and came down, hitting him in the back on the right side. An X-Ray examination showed that the bullet had penetrated to the tissues of the right lung. An operation for the removal of the bullet will not be made, as it might prove fatal. His condition is not considered to be very serious, and it is hoped he will soon be on the road of speedy recovery.

NO DAMAGE FROM EARTHQUAKE IN GLENDALE

Outside of a few clocks stopping and nearly frightening a few people out of a year's growth, there was no damage from the earthquake in Glendale last Sunday. In two or three of the buildings there was a little plaster shaken from the ceilings and that was about all.

It is true that many of our people grabbed their hats and "beat it" for the streets, and we might name a few that were taking their regular weekly baths when the quake came along and they were the one who were really worried.

BOARD PERMITS UNION OF PHONE PROPERTIES

From the Los Angeles Herald under date of April 18—An exchange of properties of the Union Home Telephone & Telegraph Co. and the Pacific Telephone & Telegraph Co., valued at several million dollars in Los Angeles, Orange and San Bernardino counties, was authorized today by the state railroad commission.

Costly competition between the two companies is entirely eliminated in the sections affected, and an adjustment of exchange rates is to be ordered by the railroad commission that will work to the benefit of the consumers.

In Long Beach the Home company acquires the property of the Pacific company. At San Pedro and Wilmington the Pacific company acquires the property of the Home company.

In the San Bernardino district the Pacific company acquires all of the property of the Home company outside of the City of San Bernardino, and transfers its San Bernardino city property to the Home company.

In Orange county the Pacific company acquires all of the property of the Home company in the cities of Santa Ana, Anaheim, Fullerton, Placentia, Orange, Garden Grove and Tustin.

The financial program accompanying the transfer of fthe properties was also approved by the commission. It includes the sale by the Home company of $219,000 worth of first mortgage 5 per cent bonds at 83 1-3, the proceeds to pay $182,000 worth of 6 per cent debentures of Nov. 1, 1917.

The Home company is further authorized to issue $30,000 worth of notes, the principal to be paid $5000 annually and the proceeds to be used by the Home company to consolidate the telephone properties purchased from the Pacific company.

In a supplemental order, the commission authorized the Pacific company to purchase outright from the San Fernando Valley Telephone Co. all of its properties in Glendale, Lankershim, Burbank and vicinity, paying $103,862 for the property.

PROPOSED ANNEXATIONS MAY MAKE GLENDALE RIVAL PASADENA IN SIZE

The new territory for which annexation petitions are being circulated takes in all the region between the west boundary of Glendale (Pacific avenue) and the Southern Pacific tracks, up to and beyond the pumping plant, and one block beyond the Grand View district, which is about half way between the pumping plant and the Burbank city limits and running northeast from that point to take in the hills up to the north city line of Glendale just south of Montrose. It includes the Casa Verdugo and the Kenneth Road districts and should it vote to come in would add to the city about three square miles of territory with an assessed valuation in the neighborhood of a million and a half. Should this union take place with the districts already annexed Glendale wou'd have territorial dimensions greater than Pasadena.

182 STEEL SHIPS LAUNCHED SINCE BEGINNING OF CAMPAIGN

A total of 182 steel vessels have been launched in American shipyards since the beginning of the shipbuilding campaign, according to a statement made public be the Shipping Board.

All the steel contract launchings and all the wood ship launchings have been from yards which were built from the ground up. More favorable weather conditions have enabled yards on the Pacific coast to make more speed than those on the Atlantic.

Give Your Little Ones An Interest in the Future

They are your hold on the future, and America is fighting to make their future safe. They are too little to realize this now—but some day must learn to reverence the traditions of America, the ideals of America, the great cause for which the men of their father's day gave their lives.

Be ready then to put in their hands bonds of their government. They will be for them inspiring evidence that their fathers planned sacrificed and invested for their sons' future. Liberty Bonds will mean more to them than money. They will make them proud of the fathers who in America's day of great need proved themselves true American patriots.

PAINT UP GOES HAND IN HAND WITH A CLEAN UP

1. Because a clean up without a paint up is useless and absurd. Houses that are unpainted eyesores are made uglier and more conspicious when only streets and grounds are cleaned up.

2. Because the painted surface, inside and outside, is washable and therefore can be kept clean and sanitary. "Paint—paint your walls, floors and ceilings often," says Dr. Leonard Keene Hirshberg, A. B., M. A., M. D. (John Hopkins university), in his "Why It's Cheaper to Keep Well—Prevention the Way."

3. Because, as Prof. H. H. King, of the Kansas State Agricultural college declares, after several year's experience in conducting painting tests for that state: "The annual loss through lack of painting is greater than the annual loss by fire."

HOUSING AND TOWN PLANNING PROBLEMS IN GREAT BRITAIN

The preparation of housing and town-planning schemes to be put in operation after the war is receiving the earnest attention of the Government and local authorities throughout Great Britain. The provision of an adequate supply of houses for the working classes is recognized as one of the most important social problems to be solved. Even before the outbreak of the war the shortage of proper housing accomodations, especially of the better class, had become a matter of some concern, particularly in the large industrial centers of the country, and in the rural districts conditions in this respect were likewise growing serious.

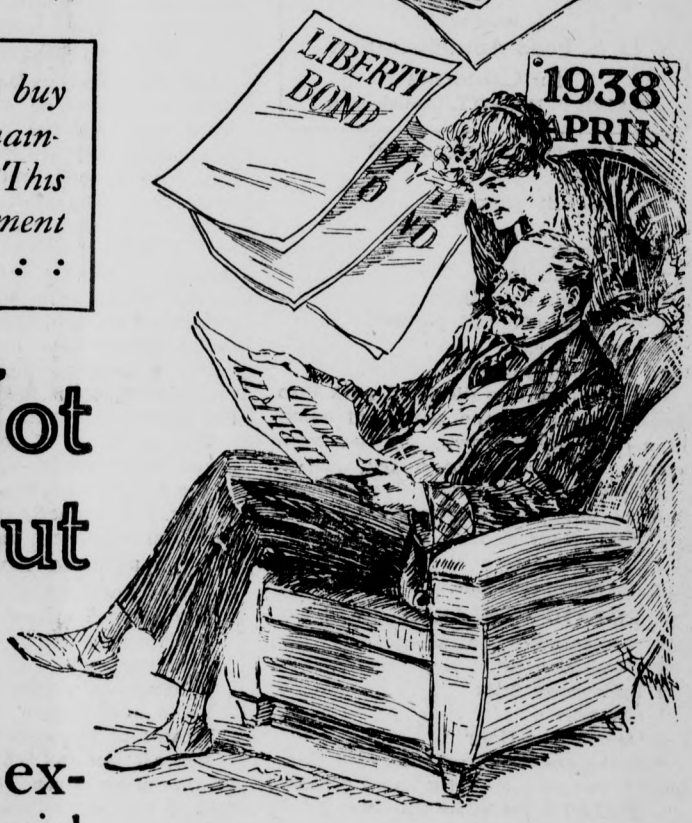
You are asked to spend wisely — to buy only the things honestly needed to maintain your health and efficiency. This is intelligent thrift. The Government asks it of you as a war measure : :



Bonds Are Not A Burden, But A Blessing

Thrift requires the exercise of restraint and self-denial —qualities without which you cannot achieve the success in life which it is your ambition to achieve and for the lack of which you are likely to suffer in later years.

The money you acquire by thrift you are asked to loan—not give—to your country. It will come back to you when you may need it far more than you do now, and you will be paid interest for its use.

This war is a frightful thing, but it may prove of inestimable benefit to you, if it teaches you the good habit of thrift.

Wheat Saving Recipes for the Housewife

Issued by
U. S. Food Administration
for California
RALPH P. MERRITT. Commissioner

POTATO CHOWDER

6 potatoes
slice of salt pork
1 onion
1 pint milk
1 tablespoon flour
1 tablespoon drippings
1 teaspoon chopped parsley
1 teaspoon salt
½ teaspoon pepper

Cut potatoes into dice and pork into small pieces; fry the pork and onion in a pan until brown, put potatoes, onions and meat into a pot, add a pint of water with seasonings; simmer half an hour; make a white sauce of the milk, flour and drippings; add to the cooked potatoes. Let all boil a few minutes and serve hot.

POTATO PANCAKES—No. 1

6 raw potatoes (large) grated
1½ teaspoon salt
1 tablespoon milk
1 egg beaten
3 tablespoons flour

Mix the above ingredients, beat thoroughly and cook on hot greased griddle.

POTATO PANCAKES—No. 2

1 cup riced potatoes
½ teaspoon salt
1 egg beaten
1 tablespoon flour
¼ cup milk

Mix the above ingredients in the order given, beat thoroughly and bake on hot greased griddle.

POTATO MUFFINS

4 tablespoons fat
2 tablespoons sugar
1 egg
1 cup mashed potato
2 cups flour
3 teaspoons baking powder
½ teaspoon salt
1 cup milk

Cream the fat and sugar; add the egg well beaten, then the potato and mix thoroughly; sift flour, baking powder, and salt; add milk and flour alternately; bake in greased muffin tins 25 to 30 minutes.

POTATO BISCUIT—No. 1

1 cup mashed potato
1 cup flour
4 teaspoons baking powder
1 teaspoon salt
2 tablespoons fat
½ cup water or milk (about)

Sift together flour, baking powder and salt; work in the fat with fork or knife; add potato and mix thoroughly; then add enough liquid to make a soft dough; roll the dough lightly to about one-half inch thickness; cut in biscuits and bake 12 to 15 minutes in hot oven.

POTATO BISCUIT—No. 2

Boil and mash six or eight potatoes; while warm lay on a floured pastry board and run the rolling pin over them until they are free from lumps; turn into a bowl, wet with a cup of sweet milk and add a teaspoon of melted fat; when well mixed work in half a cup of salted flour, or just enough to make a soft dough, return to the board, roll out quickly and lightly into a thin sheet, and cut into round cakes; bake in a quick oven; butter as soon as they are done, laying one on top of the other in a pile. Eat before they fall.

The excellence of potato biscuits depends very greatly upon the softness of the dough, light handling, and quick baking. If properly made, they will be found extremely nice.

POTATO SOUFFLE

4 cups hot mashed potato
1 tablespoon melted fat
2 tablespoons milk
1 teaspoon salt
½ teaspoon pepper
Yolks of 2 eggs
Whites of two eggs beaten stiff

Mix all but the whites of the eggs in the order given; beat thoroughly, fold in the stiffly beaten whites; pile in a baking dish and cook until the mixture puffs and is brown on the top.

SURPRISE BALLS

Form mashed potatoes into balls and with a teaspoon make a depression in the top of each; mix one cup of grated cheese with salt, celery salt, and butter substitute, and put one teaspoon in the hollow of each potato ball; mold the ball so the stuffing is concealed and brown in the oven or frying pan.

COLCANNON

Mix one cup of mashed potatoes and one cup of chopped greens to a smooth paste; add a tablespoon of fat, salt and paprika to taste; place in baking pan, cover with mashed potato, brown in the oven and serve very hot.

WHITE POTATO CUSTARDS

2 cups riced baked potato
4 eggs beaten slightly
1 cup sugar
1-3 cup fat
1-4 cup thin cream or top milk
Juice and rind of one lemon

Mix in the order given; beat hard 10 5 minutes; pour into baking dish. Bake in hot oven 20 or 30 minutes or until custard is set.

POTATO IN CAKE

In the usual cake recipe, substitute one cup of mashed potatoes for one-half cup of milk and one-half cup of flour; mash the potatoes and beat up with milk until very light. Potato cake does not dry out so quickly as all-flour cake.

More Wheat Saving Recipes will be published in the Tropico Herald next week.

Save Wheat!

Wheat saving is America's most vital food problem.

The United States Food Administration, in view of the critical wheat shortage, asks every Californian to observe the following amended rules:

Make every day and every meal a "wheatless" meal. Eat no food of any kind containing wheat or wheat products unless absolutely necessary for health.

Substitute fresh and cured meats of all kinds, potatoes, fresh vegetables, fruits, dairy products, and other cereals, such as corn and rice.

The "meatless" and "porkless" days have been suspended. There are now no restrictions on the consumption of any particular foods except wheat. The government urges, however, that no food of any kind be wasted.

Without sufficient wheat to feed our armies and those of the allies, we cannot hope for victory.

SEND YOUR FIELD GLASSES, SPY-GLASSES OR TELESCOPES TO WASHINGTON TO BE 'EYES' FOR THE FLEET

The Navy needs these "eyes" to derive the submarine of its sting and it has requested the California State Council of Defense to help it obtain them. Commissioning hundreds of new ships for naval service has created a demand for observation glasses far in excess of the present American output. The only way to insure an adequate supply while the manufacturers of lenses are speeding up production is by appealing to the patriotism of private owners.

The Government pays a nominal fee of $1,00 for each glass accepted and the donor is further rewarded by knowing that his patriotic contribution may be the means of saving thousands of troops in transport and also of saving much-needed shipping from destruction.

Old, scuffed telescopes or field glasses may possess first class lenses, so don't be chary about forwarding them regardless of appearance.

Ship direct by mail or express to **Hon. Franklin D. Roosevelt, Assistant Secretary of the Navy, Naval Observatory, Washington, D. C.** Tie a tag with your name and address to each instrument.
